MACHINERY & EQUIPMENT DIVISION:

- Considering the importance of private capital concentration in Istanbul, a branch office has been in operation in Istanbul since 1987. In this office the construction equipment sales and reliable after sales service business has become the center of competence.

ENERGY & TELECOMMUNICATION DIVISION:

- ATİLLA DURAL supports, consults and advises the companies that it represents in strategic, commercial, financial and legal issues as well as cooperation with local companies. Market analysis covering price levels, competitors, market penetration strategies, analysis of tender documents and contract securing are ATİLLA DURAL's competence areas with an impressive track record. After sales assistance is provided on all product and project sales.

Atilla Dural is the official distributor and service provider in TURKEY for:

- Comansa - Tower cranes
